

Châteauneuf-du-Pape - Red - 2022

Soil type

Plots are located northern part of Châteauneuf du Pape and the vines are grown under organic process. The soil is marked by the violence wrought by the Rhone river. It consists of a layer of marine molasses of the Miocene period covered by alpine alluvium. The presence of a great number of rounded stones known as "galets" in the earth is evidence of the time when the Rhone, then a torrent, tore fragments of rock from the Alps and deposited them on the plain.

Grape variety

Grenache noir, Syrah, Mourvèdre.

Winemaking & ageing

Harvest is sorted by hand, destemmed and crushed. Fermentation temperature is controlled at 30°C. Vatting period of 18 to 20 days. Matured in vats and oak casks.

Tasting

An intense dark-ruby colour. The nose develop aromas of ripe black fruit (such as blackberry), cherry and spice box. The palate reveals the presence of tannins, in high quantity and elegant. The finish is long and luxurious. This is the Châteauneuf du Pape expression, displaying all the characteristics of the terroir.

Advices

To drink between 2 and 8 years. Best poured at 16°C.

Contains sulfites
